WCP-L7-BLK

Wireless Charging Station with Light-up logo. Dual-coil design for Phones, watches, and earphones. USB-C Input: 12V/2.5A, 9V/3A, 5V/4A.
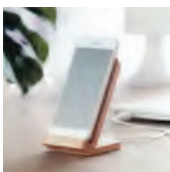

67 x 18 x 136 mm   Laser Engraving (Light-up)

10W — Fast Wireless Charging

Wireless Charging has been around since 1820!

In 1820, using an electric current and a magnetic compass, Danish physicist Hans Christian Oersted originally discovered that electric currents can create a magnetic field. But the history of wireless charging doesn't stop there! A decade later, Michael Faraday, an English scientist discovered electromagnetic inductive wireless charging!

WCP-03

Bamboo Wireless Charger Stand. Compatible with all mobile devices that support QI wireless charging (latest generations of Android and iPhone). Input: 5V / 2A. Wireless output: 10W.

Did you Know?

Fastest way to charge and save energy on your power bank.

Some smart phones automatically update the latest software, which consumes more battery power, if you want to save energy from a powerbank then put your phone on flight mode that will disable your network, and which enables to charge much faster.

Promotional USB Flash Drives

We specialize in importing quality USB Flash Drives for promotional purposes. Our USB Flash Drives are sourced from reputable factories using quality components. We pride ourselves on high standard levels and after sales services.

Benefits of Using USB Flash Drives

- Portability: USB flash drives are small and lightweight, making them easy to carry around wherever you go.
- Compatibility: USB flash drives are compatible with a wide range of devices, including computers, laptops, and smartphones.
- Ease of Use: Transferring files to and from a USB flash drive is quick and simple, even for beginners.
- Security: USB flash drives can be encrypted to protect sensitive data from unauthorized access.

Reasons why you choose us as your USB Flash Drive source.

- We import original chips separately and after testing & quality checking, We fix them in USB shells.
- We never import duplicate or upgrade chips and we offer warranty against defect.
- Fast delivery from ready stock.
- Big variety and range of products to select.
- Competetive prices with higher quality.
- Mock Ups and E-Samples

⚠️ **We never use upgrade chips
We use only original chips!**

Data transfer between platforms without the use of data cables.

This Flash drives are a type of USB flash drive that can be directly connected to a smartphone or tablet, without the need for a computer as an intermediary.

One of the most significant developments in the field of data storage and transfer has been the emergence of OTG (On-The-Go) flash drives.

In today's fast-paced digital world, having a reliable way to transfer and store data is essential for both personal and professional use. One technology that has gained popularity in recent years is the OTG flash drive. But what exactly is an OTG flash drive, and how can it benefit you?

How to Use an OTG Flash Drive

Connect the OTG Flash Drive to your mobile device: Insert the USB connector of the OTG flash drive into your device's USB port. The device should automatically detect the flash drive.

Access Files on the OTG Flash Drive: Once the flash drive is connected, you can access its contents through your device's file manager or storage settings. You can view, copy, move, or delete files as needed.

Transfer Files: To transfer files between your mobile device and the OTG flash drive, select the files you want to transfer and move them to the appropriate location on the flash drive.

Eject the OTG Flash Drive: When you're finished using the OTG flash drive, safely eject it from your device to avoid data loss or corruption.
